

About BayRidge Hospital

We are a 62-bed psychiatric hospital that provides treatment for men and women (18+) with psychotic disorders, affective disorders, and other issues.

We are licensed by the Massachusetts Department of Mental Health.

We are committed to quality, caring and community. Our goal is to create a safe, caring place for people experiencing a life crisis. Our hospital offers a place of hope for all who come here.

Paying for your care at BayRidge Hospital

We accept most insurances.

Our Treatments

We use a comprehensive approach to patient care so that you or your loved one can be rehabilitated to the highest level of functioning possible.

As part of our discharge planning, we coordinate with other community resources so that our patients can access aftercare and maintain stabilization and recovery.

Our programs include:

- Intensive Assessment Unit
- Inpatient Treatment for Adults
- Intensive Outpatient Program
- Partial Hospitalization Program

Our Services

- Group therapy
- Music therapy
- Mindfulness
- Medication education
- Peer support
- Brain 101
- Connecting through art
- Living with humor
- Substance use therapy groups
- Nutrition counseling
- Fresh air walks several times a day

We take pride in providing professional, safe and compassionate care.

Our teams include highly trained, compassionate professionals:

- Psychiatrists
- Psychologist
- Registered Clinical Nurse Specialist
- Registered Nurses
- Mental Health Counselors
- Clinical Social Workers

To ensure high-quality care for you or your loved one, we partner with Press Ganey, a national healthcare performance improvement organization.

We also offer satisfaction surveys for all of our patients to complete.
